

HEALTH SCIENCES

HELP IMPROVE HEALTH IN YOUR COMMUNITY

Are you interested in bringing quality health care to all individuals in your community? National University System offers degree programs in health sciences at National University.

Whether you want to enter the workforce or advance your career, our health sciences programs will prepare you for employment in a wide range of settings, including hospitals, clinics, rehabilitative facilities, long-term care, integrative health facilities, acute care facilities, nursing homes, hospice, wellness centers, health clubs, and corporate settings. You will also be prepared to continue your education.

LEARN MORE ABOUT

National University System, our affiliate institutions, and our programs by visiting [NUSystem.org](https://www.nusystem.org).

KEY PROGRAM HIGHLIGHTS:

- Learn to provide the highest quality of patient care and education.
- Develop effective communication, critical thinking, and problem-solving skills.
- Understand different medical models of health care delivery.
- Explore how a coordinated, comprehensive, and continuous team approach can improve treatment outcomes.
- Understand the process of active participation in health care from a provider, patient, family, and community perspective.
- Engage in culturally appropriate strategies and practices that respect the diversity of the patient and family regarding health.
